DETAILED ACTION

Election/Restrictions

I. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 6-13, 15, 24, 27-29, drawn to compounds of formulae I and IV, a composition comprising the same, and a method of using the same.

Group II, claim(s) 1, 6-12, 17, 18, 24, 27-29, drawn to compounds of formula II, a composition comprising the same, and a method of using the same.

Group III, claim(s) 1, 6-12, 14, 17, 18, 24, 27-29, drawn to compounds of formula III, a composition comprising the same, and a method of using the same.

Group IV, Claim(s) 1, 6-12, 16-18, 24, 27-29, drawn to compounds of formula V, a compositions comprising the same, and a method of using the same.

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Formulae [I, IV], II, III, and V do not share significant structural similarity. In a comparison of four groups, the core structure of each group is different. Group I is different from the other groups because of the 6-membered nitrogen-containing ring. Group II is different because of the carbonyl group attached to a cyclopropyl group. Group III is different from the other groups because of the 5-membered nitrogen-containing ring. Group IV is different because of the benzo-1,4-thiazepine ring. Thus no special technical feature is present.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined (and a species encompassed by the elected group for

Art Unit: 1624

searching purposes only) even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
